SECURITY + PRIVACY BUNDLE

Seqrite NOVA

Data Privacy Essentials

Endpoint protection, data loss prevention and privacy compliance in one bundle. Discover personal data, capture consent and become DPDP-ready.

Seqrite NOVA Data Privacy Essentials: Security and Privacy in One Bundle

Businesses that hold customer and employee personal data are subject to India's Digital Personal Data Protection (DPDP) Act, and are just as exposed to malware and data leaks. Many have no dedicated security or privacy team. **Seqrite NOVA Data Privacy Essentials** brings Seqrite Endpoint Protection, Data Loss Prevention and the core of the Seqrite Data Privacy platform together in a single, cloud-delivered bundle.

It protects your endpoints, stops sensitive data from leaving them, discovers and classifies personal data across endpoints and data sources, captures website cookie consent, and manages customer consent and preferences, all from the cloud. When your needs grow, you can add data principal rights management as an add-on.

EPP
Endpoint Protection

DLP
Data Loss Prevention

Data Privacy
- Discovery
- Cookie Consent
- Consent & Preferences

Helps you comply with the DPDP Act, 2023

What's in the Package

Every Seqrite NOVA Data Privacy Essentials subscription includes endpoint security and the core data privacy modules. Data Principal Rights Management is available as an add-on.

ENDPOINT SECURITY

Endpoint Protection (EPP)
Protect endpoints from malware, ransomware and web threats — INCLUDED

Data Loss Prevention (DLP)
Stop sensitive data from leaving your endpoints — INCLUDED

DATA PRIVACY

Data Discovery & Classification
Find and classify personal data on endpoints and data sources — INCLUDED

Cookie Consent (Website)
Scan website cookies and serve consent banners — INCLUDED

Consent & Preference Management
Capture and manage customer consent and preferences — INCLUDED

Data Principal Rights Management (DPRM)
SLA-driven workflows for data principal requests — + ADD-ON

Key Capabilities – Included

Endpoint Security (EPP)

Multi-Layered Threat Protection

Protect every endpoint against viruses, malware and ransomware, with web protection to block malicious and phishing sites.

Cloud-Managed Security

Deploy and manage endpoint security policies centrally from a cloud console, with no on-premises server to maintain.

Data Loss Prevention (DLP)

Prevent Sensitive Data Leakage

Monitor and control the movement of confidential and personal data from endpoints through channels such as removable drives, email, web uploads and applications.

Policy-Based Control and Reporting

Apply DLP policies across endpoints and review reports on data transfer attempts to show that personal data is being handled securely.

Data Discovery and Classification

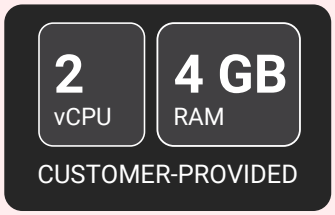

Automated Classification

Discover and label sensitive and personal data on up to 100 endpoints and up to 5 data sources (with 100 GB storage for scan results) using prebuilt and customisable classifiers.

Deep and Incremental Scans

Run a deep scan up to once a quarter per device or data source, and run incremental scans as often as you need to keep your view of personal data up to date. Data sources are scanned one at a time.

Customer prerequisite for data source scanning

To scan data sources, the customer must provide a local resource with **2 vCPU and 4 GB RAM.** This resource scans **1 data source connector at a time.**

Data Source Connectors

Connect up to 5 data sources, with 100 GB storage for scan results, from the following supported connectors across email, collaboration, cloud storage, file servers and databases.

Outlook	Gmail	MS Teams	SharePoint
OneDrive	Google Drive	Dropbox	Amazon S3
NTFS	MySQL	PostgreSQL	MSSQL
Oracle	MongoDB	Zoho CRM	and many more

Cookie Consent Management

Automatic Cookie Identification

Automatically identify and classify the cookies on your website just by providing its URL. Covers 1 website and up to 5 Lakh cookie consent records per year.

Deploy Customisable Banners

Deploy customisable, multilingual cookie consent banners to comply with the DPDP Act, while giving visitors granular control over cookie tracking.

Consent & Preference Management

Centralised Consent Management

Manage customer consent and preferences through an intuitive dashboard. Includes up to 1 Lakh consent records per year.

Real-Time Consent Choices

Let customers view, modify or withdraw their consent choices at any time, with every change recorded for compliance.

Privacy Insights and Administration

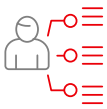

Sensitive Data Insights

See discovery results from endpoints and data sources in a central dashboard: classification results, identified PII and where it is located, with contextual tags for better governance.

Compliance Insights

Visualise sensitive data trends and patterns with interactive dashboards that support informed decisions and stronger governance.

Role-Based Access Control

Define roles such as Data Privacy Officer, Data Analyst and Business Owner, so each user can access only what their responsibilities require.

ADD-ON MODULE

+ADD-ON

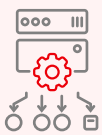

Data Principal Rights Management (DPRM)

Extend Data Privacy Essentials when you are ready. The add-on works in the same console, so there is nothing new to learn.

Streamlined Rights Fulfilment

Fulfil rights requests efficiently by finding and correlating a data principal's (customer's) personal data across your connected sources.

Case Management Workflow

Automate data access, correction and deletion requests with structured, SLA-driven case management workflows.

Edition Specifications

Default capacities and system limits for Seqrite NOVA Data Privacy Essentials.

Endpoint Protection & DLP	**INCLUDED**
Endpoints supported	**Up to 100 endpoints**
Variant	**Seqrite Endpoint Protection Cloud Premium**
Data Discovery & Classification	**INCLUDED**
Discovery coverage	**Endpoints (up to 100) and data sources**
Data sources	**Up to 5 data sources**
Scan results storage	**100 GB**
Deep scans	**Up to 1 per quarter per device / data source**
Incremental scans	**No limit**
Reports	**Summary reports**
Scan summary retention	**1 year**
High availability (HA)	**Not supported in this edition**
Cookie Consent (Website)	**INCLUDED**
Websites	**1 website**
Cookie consent records	**Up to 5 Lakh records per year**
Cookie consent submission retention	**1 year**
Consent & Preference Management	**INCLUDED**
Consent records	**Up to 1 Lakh consent records per year**
Consent record retention	**1 year**
Deployment	
Deployment model	**Cloud**
Customer prerequisite	**Local resource of 2 vCPU and 4 GB RAM for data source scanning (1 connector at a time)**
Available Add-on	**+ADD-ON**
Additional module	**Data Principal Rights Management (DPRM)**
DPRM request record retention	**1 year**

Why choose Seqrite NOVA Data Privacy Essentials?

Security and Privacy in One Bundle

Endpoint Protection, DLP and data privacy compliance from one vendor, in one subscription, instead of separate point tools.

Compliance Readiness

Work towards and maintain compliance with the DPDP Act through data discovery, cookie consent, consent & preference management and summary reporting.

Visibility Across Endpoints and Data Sources

Know where sensitive personal data lives across up to 100 endpoints and 5 data sources, and stop it from leaking.

Cloud-Delivered, Lightweight

Cloud deployment with a small 2 vCPU / 4 GB requirement for data source scanning, with no heavy infrastructure to run.

Customer Trust & Transparency

Give website visitors clear cookie notices, let customers manage their consent, and handle personal data securely.

Streamlined Privacy Operations

Cut manual effort with automated discovery, incremental scans, automatic cookie identification and one console for privacy tasks.

Start with Essentials, Add as You Grow

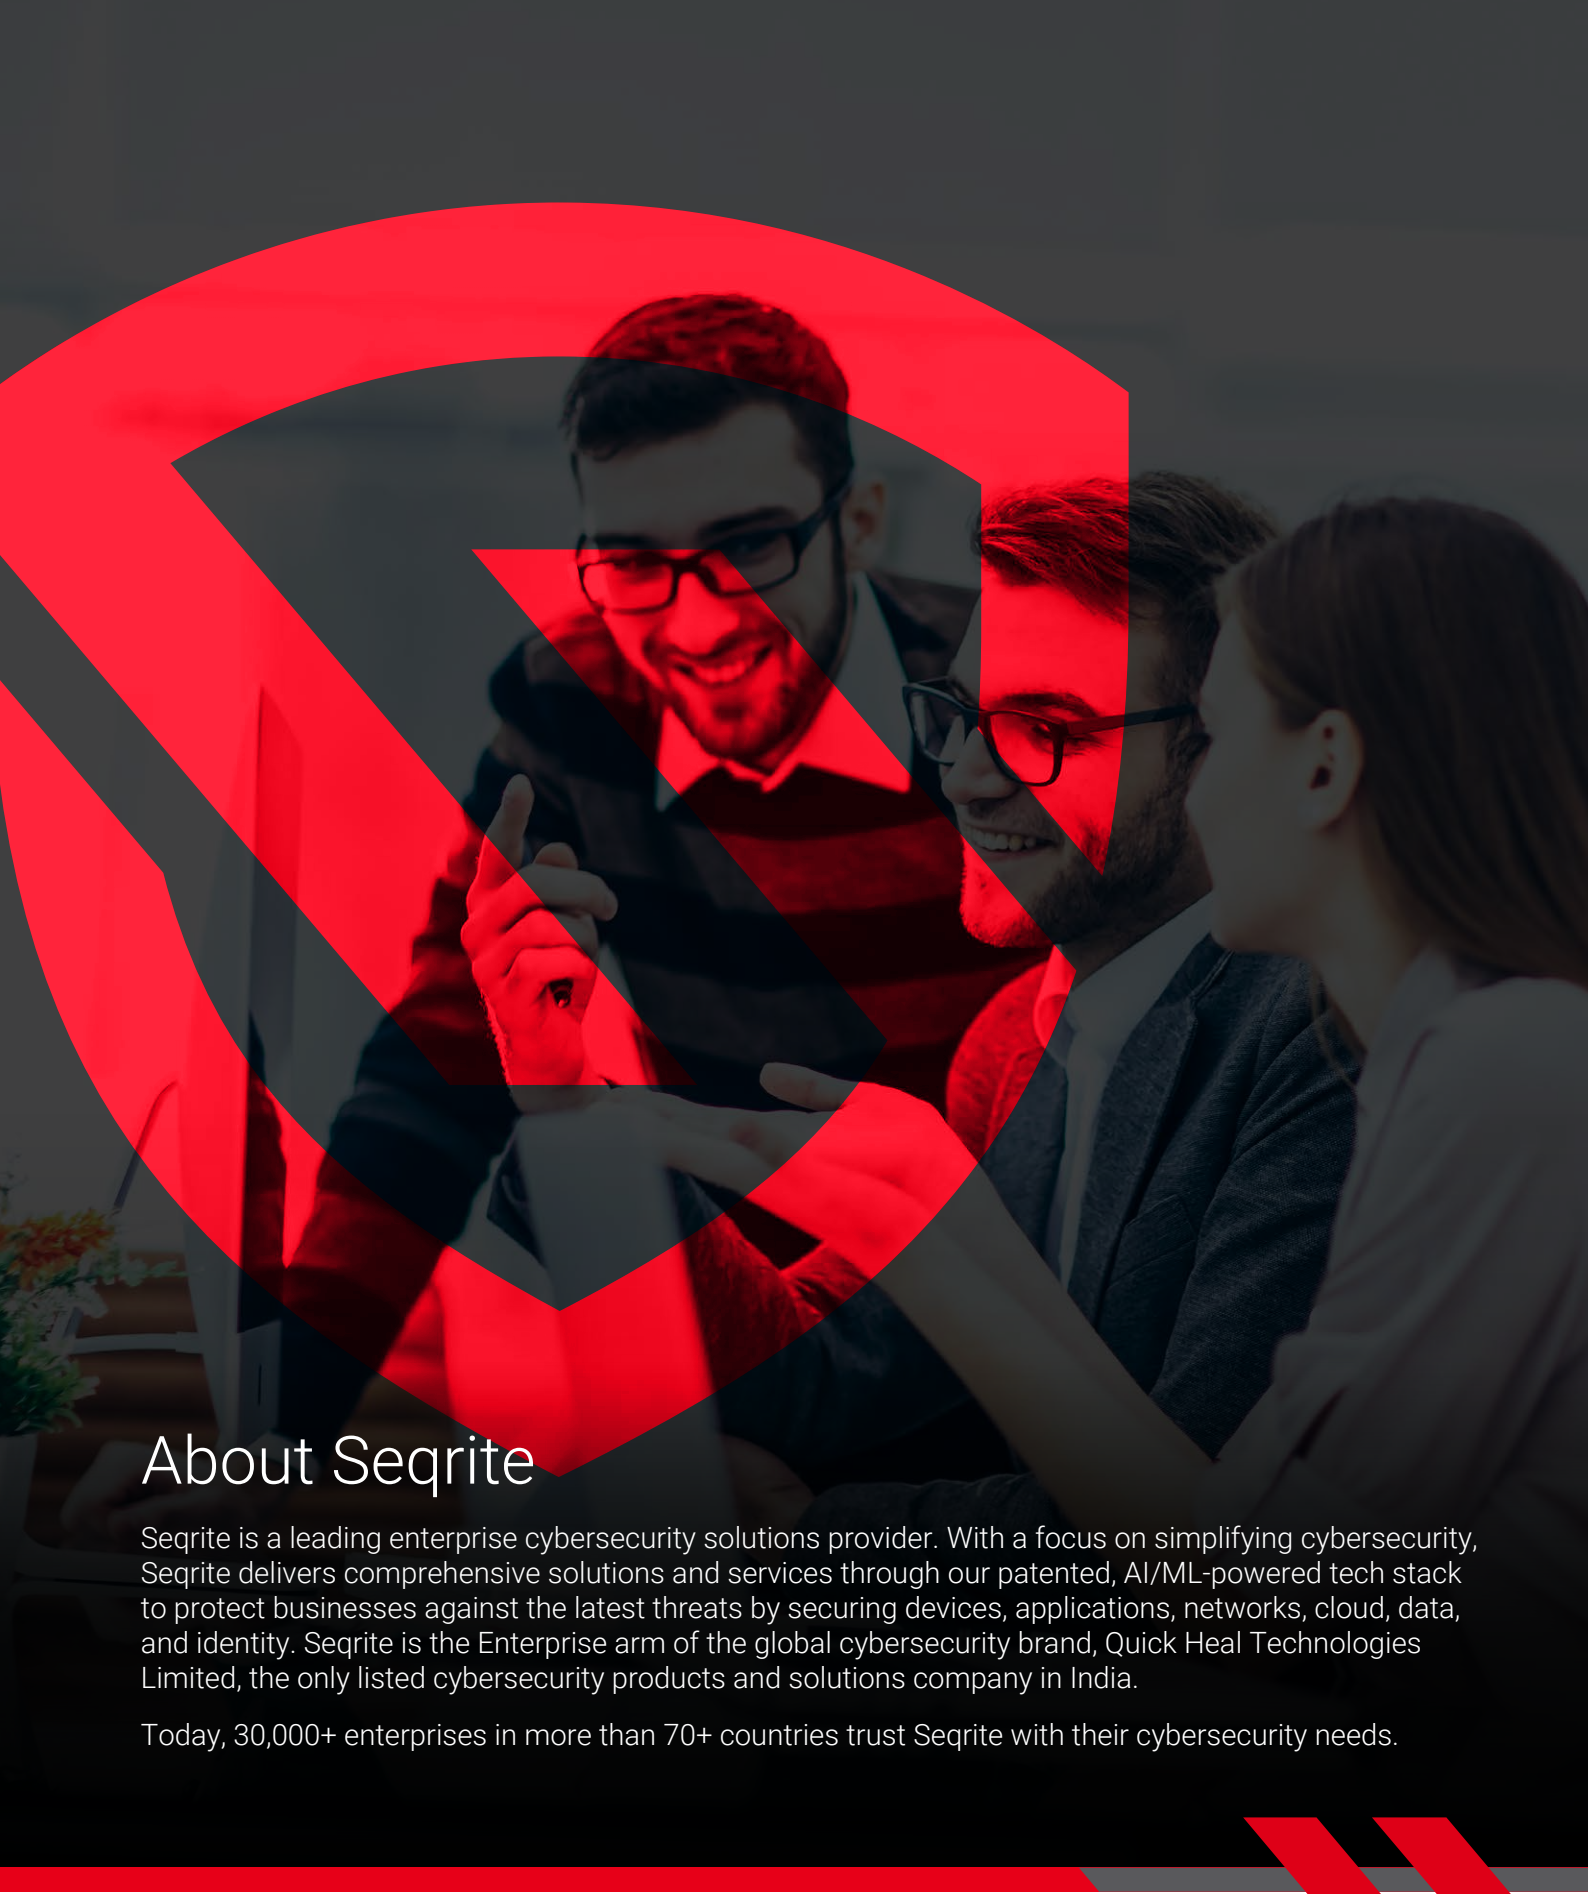

Add data principal rights management whenever your compliance needs grow.

A Trusted, Made-in-India Partner

Backed by Seqrite, the enterprise arm of Quick Heal Technologies, trusted by 30,000+ enterprises in more than 70 countries.
