ENDPOINT SECURITY +
DLP FOR DATA PRIVACY

Seqrite NOVA

Data Privacy Lite

Endpoint protection and data loss prevention in one bundle for small businesses. Keep personal data secure on Windows and Mac endpoints and take your first step towards DPDP readiness.

Seqrite NOVA Data Privacy Lite:
Privacy Starts with Secure Endpoints

Small businesses hold customer and employee personal data every day, in spreadsheets, invoices, emails and on laptops. India's Digital Personal Data Protection (DPDP) Act, 2023 expects every business that handles this data to protect it with reasonable security safeguards and prevent personal data breaches. Most small offices have no dedicated security or privacy team to do this.

Seqrite NOVA Data Privacy Lite brings **Seqrite Endpoint Protection (SOHO Total Edition)** and Seqrite Data Loss Prevention together in one bundle for businesses with fewer than 100 users. It secures the Windows and Mac endpoints where personal data lives, and stops data such as Aadhaar, PAN and card numbers from leaving them.

₹250 Cr Maximum penalty under the DPDP Act for failing to take reasonable security safeguards to prevent a personal data breach.

EPP
Endpoint Protection
SOHO Total Edition

DLP
Data Loss Prevention

Helps you work towards compliance with the DPDP Act, 2023

How It Supports DPDP Compliance

Seqrite NOVA Data Privacy Lite turns proven endpoint security and data loss prevention into the technical safeguards your business needs to protect personal data under the DPDP Act, 2023.

Privacy Need	How Data Privacy Lite Helps	Capabilities
Reasonable security safeguards (DPDP Act, Sec. 8(5))	Multi-layered protection keeps every device that stores personal data free of malware, ransomware and network intrusions.	**Antivirus, Anti-Ransomware, IDS/IPS, Firewall**
Prevent personal data breaches	Monitors and blocks personal data leaving endpoints through USB drives, email, browsers, cloud apps, printers, network shares, clipboard and screenshots.	**Data Loss Prevention, Advanced Device Control**
Know where personal data sits	Scans files at rest on endpoints for Aadhaar, PAN, passport and card numbers and your own keywords, and reports where sensitive files are.	**DLP Data-at-Rest Scan, Pattern Detection**
Protect data on lost or stolen devices	Encrypts OS and data drives so personal data stays unreadable if a laptop goes missing.	**Disk Encryption Management**
Reduce exposure to threats	Blocks phishing and malicious sites, restricts risky web categories and lets only approved applications run.	**Web Protection, Web Filtering, Application Control**
Demonstrate accountability	DLP violation reports by channel and data type, plus asset and vulnerability visibility, show that personal data is handled securely.	**DLP Reports, Asset Management, Vulnerability Scan**

TECHNICAL SPECIFICATIONS INCLUDED

Endpoint Protection

Powered by Seqrite Endpoint Protection SOHO Total Edition: enterprise-grade, multi-layered security for Windows and Mac endpoints, managed from one web console.

CORE & NETWORK PROTECTION

Antivirus

Malware protection certified by leading industry certifications.

Anti-Ransomware

Stops ransomware attacks and automatically backs up selected file types.

IDS/IPS

Detects network activity that exploits application vulnerabilities and blocks intruders.

Firewall

Monitors inbound and outbound network traffic based on rules.

WEB & EMAIL PROTECTION

Browsing & Phishing Protection

Blocks malicious and phishing sites, and protects against email-borne threats.

Web Filtering

Blocks websites by category to enforce acceptable-use policies.

YouTube Access Controller

Restricts YouTube access by category or channel for productivity and compliance.

Vulnerability Scan

Summarised view of endpoint vulnerabilities by severity.

DEVICE, APPLICATION & DATA CONTROL

Advanced Device Control

Policies for storage, mobile, portable and wireless devices and network interfaces.

Application Control

Blocklist unwanted software or safelist so only trusted, approved applications run.

Disk Encryption Management

Encrypts OS and data drives to prevent access if a device is lost or stolen.

Tune-up

Cleans up junk files to keep endpoints running smoothly.

VISIBILITY & MANAGEMENT

Asset Management

Full visibility of hardware and software on endpoints, with change tracking.

Centralised Administration

Web console with dashboard, group and policy management, and email and SMS alerts.

Automatic Updates

The cloud-hosted console updates automatically, with no upgrades to install.

Windows & macOS Support

Protect a mixed office from one console. Feature availability can vary by OS.

TECHNICAL SPECIFICATIONS INCLUDED

Data Loss Prevention

Find personal and confidential data in files and stop it leaving your Windows and Mac endpoints, with policies that block or report every transfer attempt.

CAPABILITY	WHAT IT DOES
MONITORED CHANNELS	
Removable storage	USB pen drives and external hard disks
CD / DVD	Burning in native mode or via third-party apps
Network share	Data copied to network locations
Clipboard	Copy and paste of sensitive content
Print screen	Allow or block, with content analysis
Printer	Allow or block print jobs, with monitoring
Applications	Browsers, email, IM, cloud and file sharing, social media
Email	Outgoing mail incl. SMTP over SSL, Outlook, webmail
Sensitive Data Detection	
File types	Content-based: office, graphic, programming files
Custom file extensions	Admin-defined sensitive extensions
Personal data patterns	Aadhaar, PAN, passport, driving licence, email and more
Card numbers	Visa, Mastercard, JCB, Diners and more
Custom regex patterns	Your own patterns via regular expressions
User-defined dictionaries	Keyword lists, whole-word and case-sensitive match
Policy Actions & Exceptions	
Global action	Block and report, or allow and report only
Granular actions	Separate action per file type, pattern or dictionary
Exceptions	Trusted email domains, applications, network shares
Reporting	
Violation charts	Last n days, by channel and by data type
Detailed reports	Tabular reports of violations and data-at-rest scans
Advanced Capabilities	
Data-at-rest scan	On-demand or scheduled scan for sensitive files
OCR	Extracts text from images for inspection
Manual classification	Users label files as Confidential or Public

Edition Specifications

Default scope and system details for Seqrite NOVA Data Privacy Lite.

General	
Designed for	Small businesses with fewer than 100 users
Supported endpoints	Windows and macOS
Supported OS versions	Windows: Windows 7, 8.1, 10 (incl. November 2019 Update) and 11 (Home, Basic, Premium, Professional/Pro, Enterprise, Education, Ultimate; 32/64-bit where applicable); Windows Embedded; Windows Server 2008 R2, SBS 2011, Server 2012, 2012 R2, 2016, 2019, 2022 and 2025 (Standard, Datacenter, Essentials and other editions) macOS: Mac OS X 10.12 to 10.15, macOS 11, 12, 13, 14, 15, 26 and 27
Deployment model	Cloud-managed console, no on-premises server to maintain
Licensing	Per endpoint per year
Endpoint Protection	**INCLUDED**
Edition	Seqrite Endpoint Protection SOHO Total Edition
Threat protection	Antivirus, Anti-Ransomware, IDS/IPS, Firewall, Browsing and Phishing Protection
Control	Advanced Device Control, Application Control (blocklist and safelist), Web Filtering, YouTube Access Controller, Disk Encryption Management
Visibility and management	Asset Management, Vulnerability Scan, Tune-up, centralised web console with email and SMS alerts
Data Loss Prevention	**INCLUDED**
Monitored channels	Removable storage, CD/DVD, network share, clipboard, print screen, printer, applications (browsers, IM, cloud, social media), email
Sensitive data detection	Personal data patterns (Aadhaar, PAN, passport, driving licence, email), card numbers, file types, custom extensions, regex, dictionaries
Policy actions	Block and report, or allow and report; exceptions for trusted domains, applications and network shares
Reporting	Violation charts by channel and data type, detailed violation and data-at-rest scan reports

Why choose Seqrite NOVA Data Privacy Lite?

Data Privacy, Made Practical

A simple first step towards DPDP compliance, built on proven endpoint security and DLP.

Built for Small Businesses

Sized for businesses with fewer than 100 users looking for fast time to value.

Stops Personal Data Leaks

Detects Aadhaar, PAN, card numbers and your own keywords, and controls how they leave through USB, email, web, cloud, print and clipboard.

Windows and Mac Coverage

Protect the mixed devices of a modern small office from a single console.

Simple, Cloud-Managed Operations

One easy dashboard, automatic updates and no server to maintain. No technical expertise needed.

Proof When You Need It

DLP violation, data-at-rest, asset and vulnerability reports help you show personal data is handled securely.

A Trusted, Made-in-India Partner

Backed by Seqrite, the enterprise arm of Quick Heal Technologies, trusted by 30,000+ enterprises in more than 70 countries.

Seqrite Endpoint Protection is certified as Approved Corporate Endpoint Protection for Windows by AV-TEST.
