DPDP COMPLIANCE AT SCALE

Seqrite NOVA

Data Privacy Professional

Discover personal data, manage cookie consent and customer consent & preferences, and handle data principal requests, all from one cloud-delivered privacy platform.

Seqrite NOVA Data Privacy Professional: Operationalise DPDP Compliance

Organisations that hold sensitive personal data of customers and employees must show that they comply with India's Digital Personal Data Protection (DPDP) Act. That means knowing where personal data lives, recording valid consent and responding to data principals' requests on time. **Seqrite NOVA Data Privacy Professional** brings these capabilities together in a single, cloud-delivered edition of the Seqrite Data Privacy platform.

It discovers and classifies personal data across up to 500 endpoints and 15 data sources, captures website cookie consent, manages customer consent and preferences, and gives you structured workflows for data principal rights requests. When you need them, you can add breach notification and privacy assessment modules.

Discovery
Endpoints & data sources

Cookie Consent
Website cookies

Consent & Preferences
Customer consent

DPRM
Data principal rights

- Helps you comply with the DPDP Act, 2023

What's in the Package

Every Seqrite NOVA Data Privacy Professional subscription includes four core privacy modules. Two further modules are available as add-ons.

Data Discovery & Classification
Find and classify personal data on endpoints and data sources — INCLUDED

Cookie Consent (Website)
Scan website cookies and serve consent banners — INCLUDED

Consent & Preference Management
Capture and manage customer consent and preferences — INCLUDED

Data Principal Rights Management (DPRM)
SLA-driven workflows for data principal requests — INCLUDED

Breach Notification
Log incidents and meet 72-hour breach reporting timelines — + ADD-ON

Privacy Assessment Automation
Automated DPIA, RoPA and gap assessments — + ADD-ON

Key Capabilities – Included

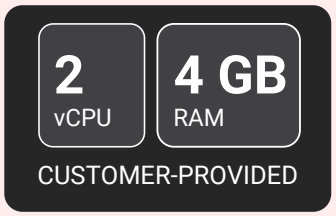

Data Discovery and Classification

Automated Classification

Discover and label sensitive and personal data on up to 500 endpoints and up to 15 data sources (with 500 GB storage for scan results) using prebuilt and customisable classifiers.

Deep and Incremental Scans

Run up to three deep scans a quarter per device or data source, and run incremental scans as often as you need to keep your view of personal data up to date. Data sources are scanned one at a time.

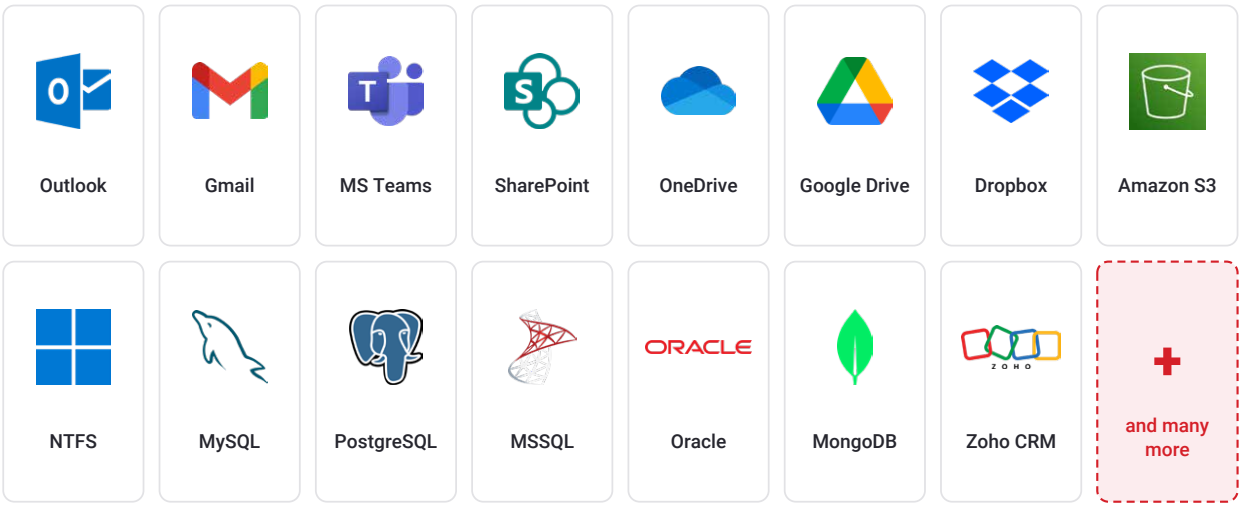

Customer prerequisite for data source scanning

To scan data sources, the customer must provide a local resource with **2 vCPU and 4 GB RAM.** This resource scans **1 data source connector at a time.**

Data Source Connectors

Connect up to **15 data sources, with 500 GB storage for scan results,** from Seqrite's full library of connectors across email, collaboration, cloud storage, file servers, databases, business applications and many more.

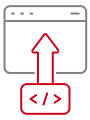

Cookie Consent Management

Automatic Cookie Identification

Automatically identify and classify the cookies on your websites just by providing their URLs. Covers 2 websites and up to 10 Lakh cookie consent records per year.

Deploy Customisable Banners

Deploy customisable, multilingual cookie consent banners to comply with the DPDP Act, while giving visitors granular control over cookie tracking.

Consent & Preference Management

Centralised Consent Management

Manage customer consent and preferences through an intuitive dashboard. Includes up to 5 Lakh consent records per year.

Real-Time Consent Choices

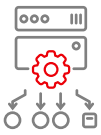

Let customers view, modify or withdraw their consent choices at any time, with every change recorded for compliance.

Data Principal Rights Management (DPRM)

Streamlined Rights Fulfilment

Find and correlate a data principal's personal data across your connected sources.

Case Management Workflow

SLA-driven workflows for data access, correction and deletion requests.

Privacy Insights and Administration

Sensitive Data Insights

Classification results, identified PII and data locations in one central dashboard.

Compliance Insights

Interactive dashboards that show sensitive data trends and patterns.

Role-Based Access Control

Roles such as DPO, Data Analyst and Business Owner, each with the right level of access.

ADD-ON MODULE

Extend Seqrite NOVA Data Privacy Essentials when you are ready. The add-on works in the same console, so there is nothing new to learn.

Data Breach Notifications

+ADD-ON

Data Breach Incidents

Log severity, date, impact and affected data principals for each incident.

Customisable Notification Templates

Customisable notification templates for different stakeholders.

Timely Breach Notification Delivery and Tracking

Schedule notices to meet 72-hour reporting timelines and track follow-ups.

Privacy Assessment Automation

+ADD-ON

Inbuilt Privacy Assessment Templates

Start from built-in assessment templates, then clone and customise them.

Create and Track Privacy Assessments

Automate DPIA, RoPA and gap assessments and track ongoing compliance.

Edition Specifications

Default capacities and system limits for Seqrite NOVA Data Privacy Professional.

Data Discovery & Classification	INCLUDED
Endpoints supported	Up to 500 endpoints
Discovery coverage	Endpoints and data sources
Data sources	Up to 15 data sources
Scan results storage	500 GB
Deep scans	Up to 3 per quarter per device / data source
Incremental scans	No limit
Reports	Summary reports
Scan summary retention	1 year
High availability (HA)	Not supported in this edition

Cookie Consent (Website)	INCLUDED
Websites	2 websites
Cookie consent records	Up to 10 Lakh records per year
Cookie consent submission retention	1 year

Consent & Preference Management	INCLUDED
Consent records	Up to 5 Lakh consent records per year
Consent record retention	1 year

Data Principal Rights Management (DPRM)	INCLUDED
Rights requests	Access, correction and deletion workflows
Request record retention	1 year

Deployment	
Deployment model	Cloud
Customer prerequisite	Local resource of 2 vCPU and 4 GB RAM for data source scanning (1 connector at a time)

Available Add-on	+ADD-ON
Additional module	Breach Notification, Privacy Assessment Automation

Why choosen Seqrite NOVA Data Privacy Professional?

Compliance Readiness

Work towards and maintain compliance with the DPDP Act through data discovery, cookie consent, consent & preference management and summary reporting.

Visibility Across Endpoints and Data Sources

Know where sensitive personal data lives across up to 100 endpoints and 5 data sources, and stop it from leaking.

Rights Requests, Handled

Respond to access, correction and deletion requests through SLA-driven workflows, with a full record of every case.

Broad Connector Coverage

Scan email, collaboration tools, cloud storage, file servers, databases and business applications from Seqrite's full connector library.

Customer Trust & Transparency

Give website visitors clear cookie notices, let customers manage their consent, and handle personal data securely.

Cloud-Delivered, Lightweight

Cloud deployment with a small 2 vCPU / 4 GB requirement for data source scanning, with no heavy infrastructure to run.

Add Modules as You Grow

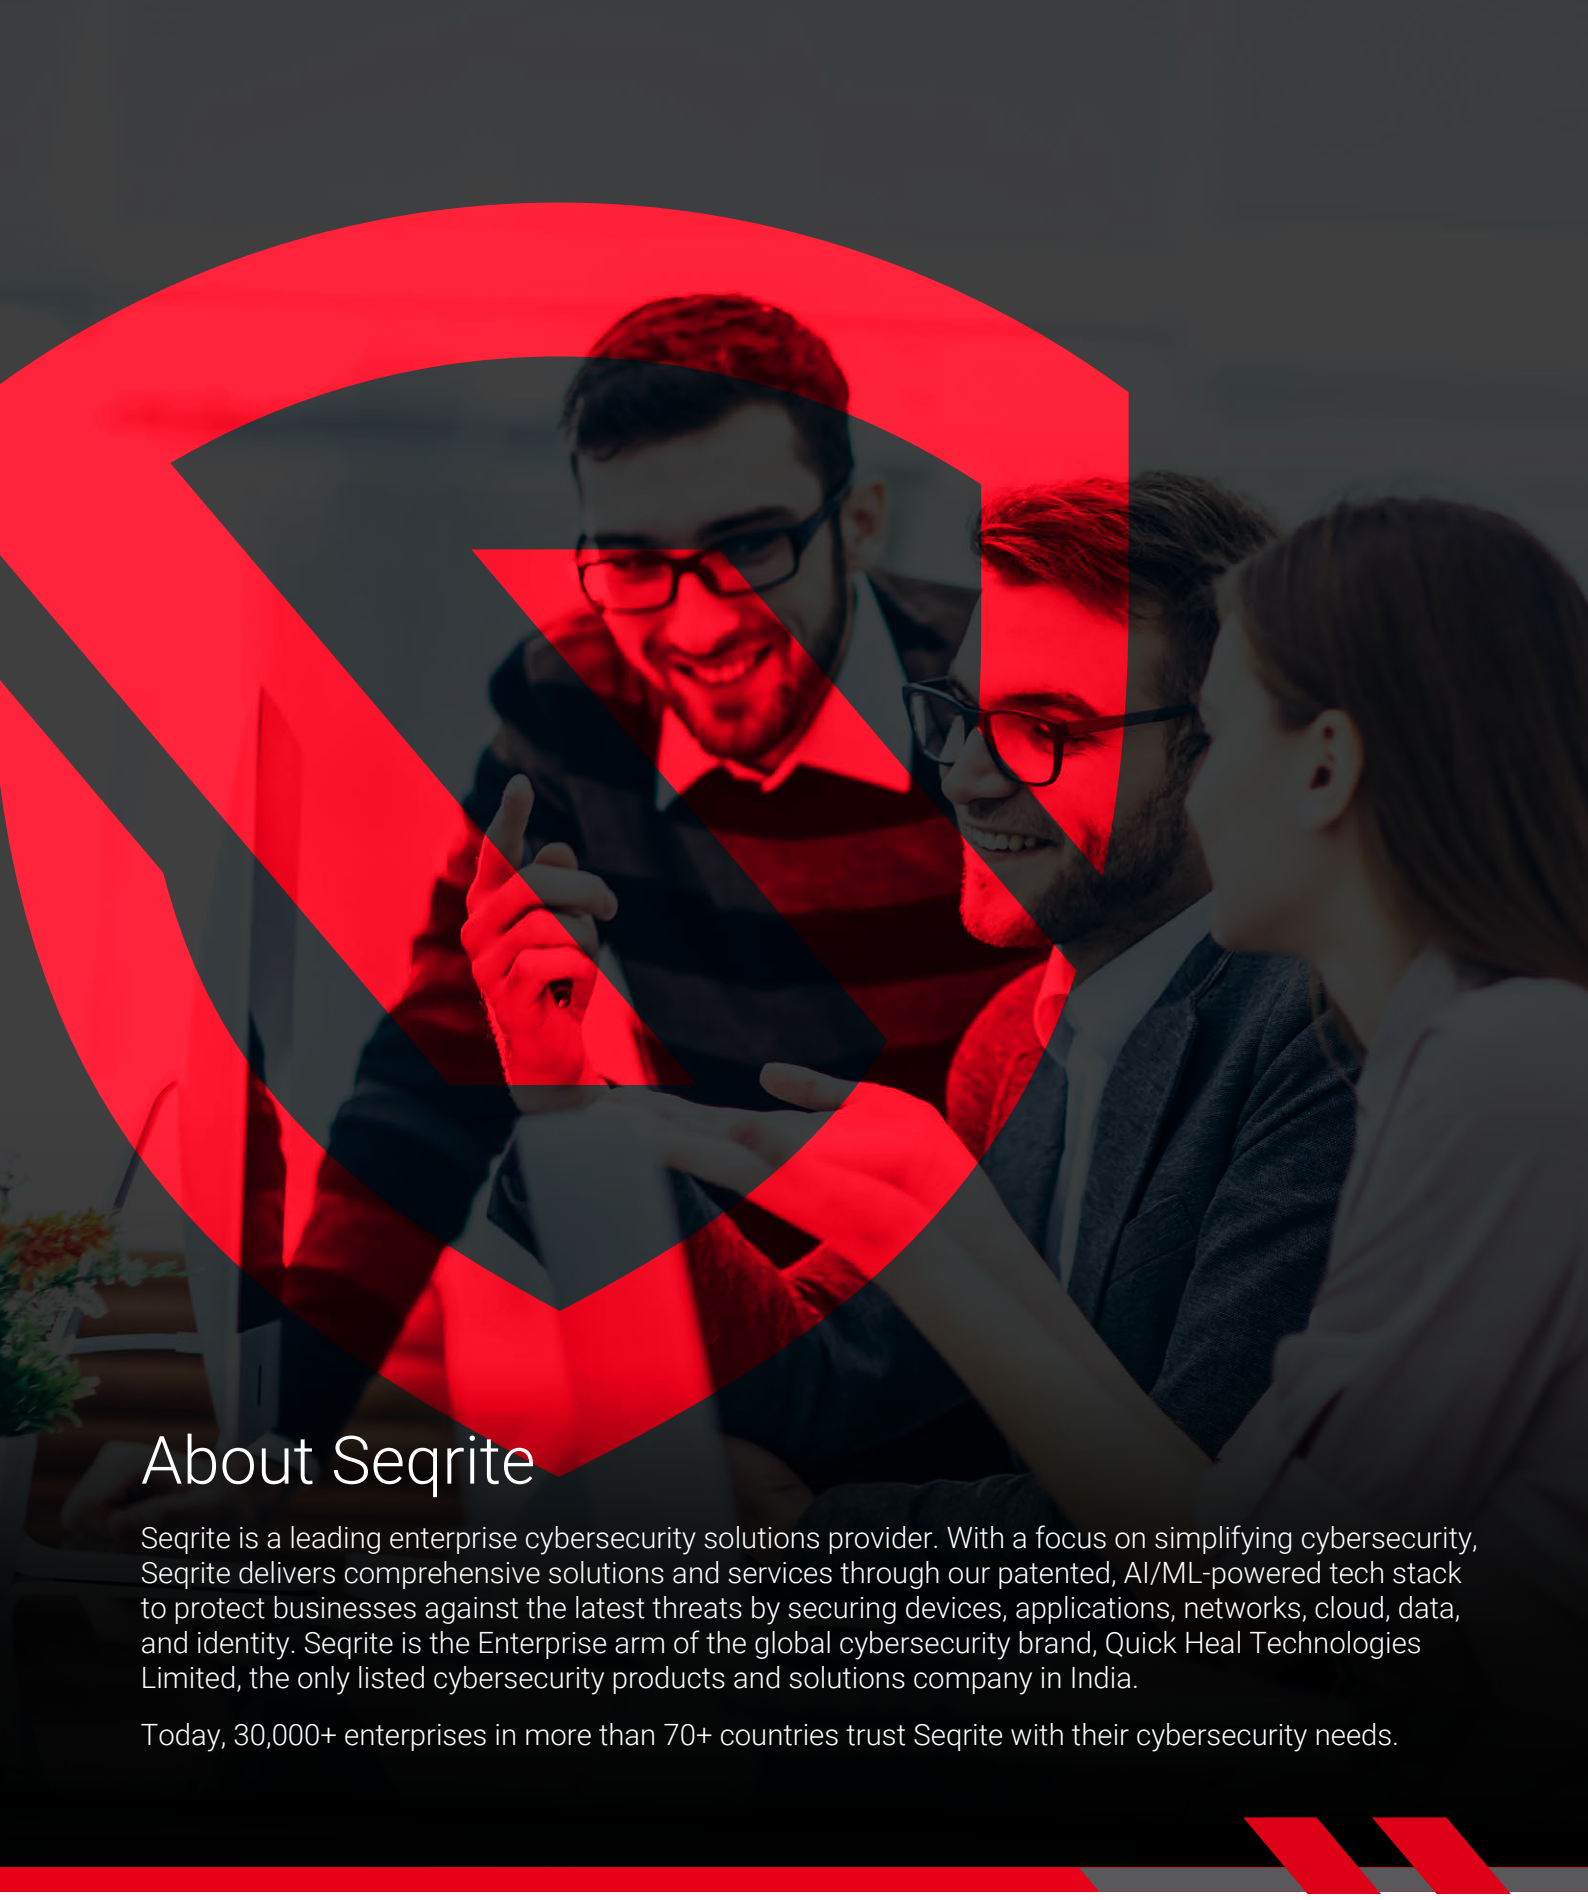

Add breach notification or privacy assessment automation whenever your compliance programme needs them.

A Trusted, Made-in-India Partner
